

EVER QUOTE A JOB, THEN FIND OUT YOU **GAVE IT AWAY?**

I kept losing money at the kitchen table — tired, customer waiting, and the number I said in the next thirty seconds was the one I had to honor in the morning. So I built this.

WHAT YOU SEE

Each item priced at its own margin tier.

Additional fees

\$ 0.00

ESTIMATED TOTAL

\$2,078

Standard pricing

Labor — 1h @ \$202.00 + 2.00h @ \$182.00 **\$566.00**

Back **Email to customer**

Turn the phone around. A clean number, and none of that on it.

\$12.99
A MONTH

Set your labor rate, your material margin and your overhead once. After that you put in the hours and the parts and the right price comes out. **One job you don't underprice pays for years of it.** Cancel in the app, no phone call.

SCAN IT — PRICE A WATER HEATER IN ABOUT TWENTY SECONDS
GETDEADHAND.COM

Built by a working plumber in PA, for one- and two-truck shops.
No app store, nothing to install, no demo call. It quotes — it doesn't run the shop.

The other tools want a subscription for every tech, a setup fee before you quote anything, and a call with a salesman. This wants \$12.99 and about a minute.
